

PROFESSIONAL RESOURCES

Unparalleled Business Intelligence Expertise

Throughout its history, SQLiaison has always sought to attract driven individuals dedicated to the pursuit of excellence in their area of expertise. It is our priority to be the employer of choice for professionals with unparalleled expertise in data management & business intelligence. Furthermore, we are adding to their expertise by investing in their formal training. This has allowed us to provide our clients with the best expertise available on the market.

Our Professional Services Solutions

To help our Clients with their needs for expertise, we provide resources at all levels and at all stages of data management, data warehousing and business intelligence initiatives.

Our consultants can be a real asset to your project:

- To execute the projects you planned, or to take on the responsibility of delivering a specific deliverable or sub-project;
- Whether the requirement is for a data warehouse project leader or a hands-on technical specialist on a specific BI tool such as a senior analyst;
- For an intervention of a few days, several months, or for a sporadic presence at specific periods in the project;
- Whether we engage on a time & material or fixed-price basis.

Nurturing our Expertise

SQLiaison makes sure that the consultants we introduce to our Clients are always at the leading edge of the BI technologies, both in terms of implementation as well as best practices within our industry. To accomplish this, SQLiaison:

- Created 4 expertise centers each headed by a practice leader;
- Has kept the use of subcontractors to a minimum (except for niche technologies);
- Engineered and implemented a process of personnel development including career objectives and personalized training plans;
- Devised and implemented a consultant evaluation process that monitors 12 performance evaluation criteria.

Resources Category

We offer the services of a broad variety of experts to cater to your specific needs and to optimize the full potential of your existing production resources. Our experts work hand in hand with our clients to understand, design and implement the best solutions. Each Client is assigned an Engagement Manager at no cost to make sure our services are meeting your expectations in every possible way.
